- Can access manage Doctors, Patients, account and Receptionists.
- Can see appointments, total revenue, today's earning.
- Can see total monthly earning of the hospital or clinic.

Book Appointment

Ensure that both the panel and landing page have an intuitive and user-friendly design to facilitate easy navigation.

This screenshot shows the 'DOCTORLY' web application interface with the 'BOOK APPOINTMENT' form. The sidebar on the left is identical to the first screenshot. The main content area has a 'BOOK APPOINTMENT' title and a 'Back' button. Below the title is a 'Book Appointment' section with the following fields: 'Patient *' (with a 'Select' dropdown), 'Doctor *' (with a 'Select' dropdown), 'Date *' (with a text input field), 'Available Time*' (with a text input field), and 'Available Slot*' (with a text input field). At the bottom of the form is a 'Create Appointment' button.

Prescription Management

Effortlessly oversee patient prescriptions, track medication, handle dispensing, and maintain accurate records for comprehensive healthcare management.
